10/30/09 16:39 INIT SPEAK TO OFFICER

WOJCIECHOWSKI,  
STEVEN

On the above date and time Daniel Bowers arrived at the Elk Township Police Department and wished to speak to an officer in regards to vehicles and storage being parked on the "paper road" section of New Jersey Drive. Mr. Bowers further advised me that he currently owns the ground located directly behind Superior Barrel and Drum Co.

Mr. Bowers has very limited access to the property due to the fact that the owner of Superior Barrel and Drum Co., Thomas Toy has been using the portion of the road that is papered as part of his storage. This prevents Mr. Bowers from being able to use the road as intended to access his property.

I advised Mr. Bower that I would go to that location and attempt to speak with the owner and see what could be done about making the road accessible.

At approximately 1600 on 10/30/09 I arrived at the above location accompanied by Patrolman Tilden and Officer Rambone. We briefly walked the papered road portion of New Jersey Avenue. I observed several large trailers and several hundred barrels. A large portion of the barrels was leaking and their appeared to be a large amount of spillage. The odor of chemicals was unbearable in some parts of the area and what appeared to be liquid chemical puddles were numerous. Trash and debris littered the area as well as broken equipment.

After walking the area, we were able to locate a trailer style building and made contact with Thomas Toy. I advised Mr. Toy of the complaint and my new concerns for the environmental safety hazard posed by the leaking chemicals. I escorted Mr. Toy to the areas which I was concerned and advised him that he was in violation for the road blockage

as well as the spillage. Mr. Toy stated that he would begin clean up of the area as early as 11/02/09.

I advised Mr. Toy that I would make sure that follow up investigations would be conducted concerning this matter and that the Department of Environmental Protection was to be contacted.

At this time D.E.P. has not been contacted.

This matter has been turned over to Chief DeFalco.

10/30/09 15:17 INIT HAZARDOUS CONDITION

TILDEN, WESLEY

While assisting in the investigation of 2009-06445, improperly stored industrial materials were observed by this officer in the rear of Superior Barrel & Drum. Certain barrels seemed to have corroded and failed. Chemical odor present in the air.

Report to be completed.

Follow-up with appropriate agencies will take place

11/05/09 11:22 INIT FOLLOW UP

GARRISON II, WALTER

On the above time and date, I was given a follow up to case #200906445 into the investigation of improperly stored materials. I contact the the Department of Environmental Protection, and spoke with operator #25 who's name being Craig no last name given. The Department of Environmental Protection, assign us a case # 091105110457.

At 11:25 Investigator Hoyle from the Robinsonville New Jersey Office called me and advised that they have called in the department of health and human services to assist in this investigation.

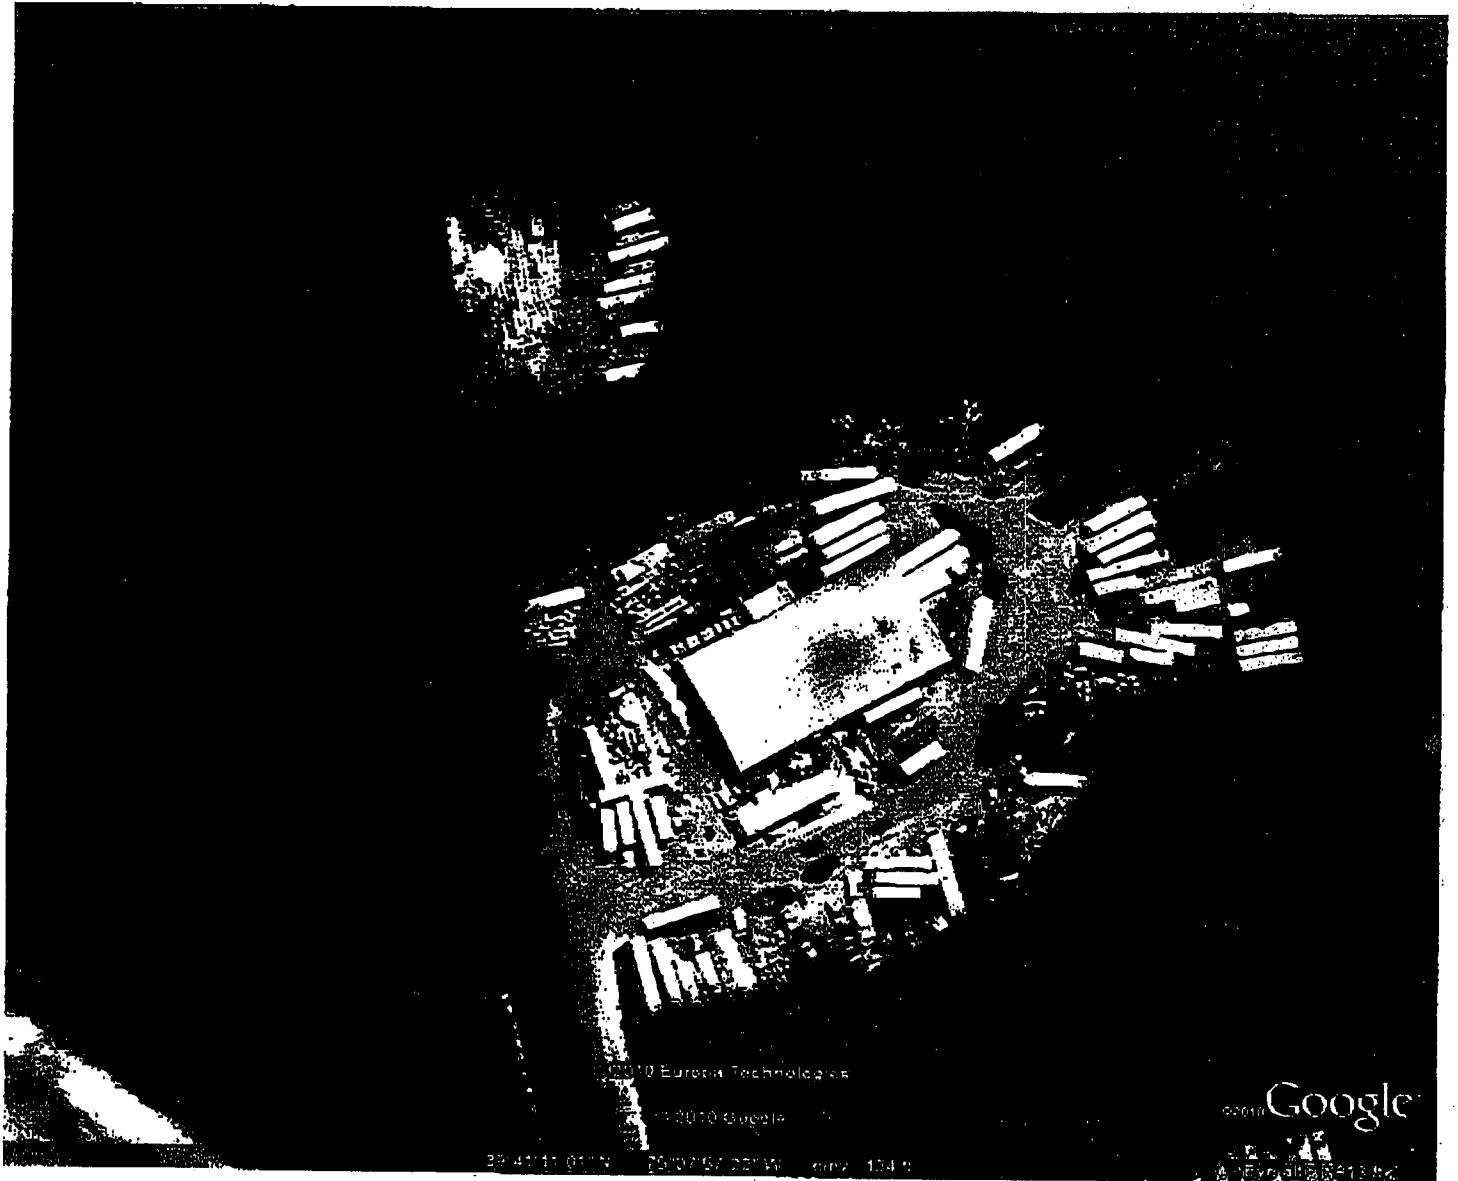

Investigation continues;
